

Notes

Motorsport UK, Safety Committee Meeting, Held at Bicester and via Teams on 11th. August 2021.

The minutes of the meeting held on 14th. April were approved.

We discussed the impact of noise at motorsport events, and the implications arising from restarting motorsport events following Covid.

We looked over potential insurance claims which had arisen during the past year and how next of kin details are stored.

The proposal to allow Juniors to run on unsealed special stages was discussed as was the FIA Impact Data Recorder, and also the proposals discussed by the Technical and Safety Team concerning the Safety Roadmap.

At the Speed Committee concerns had been raised about window net installations.

An update was received from the Kart Committee, including the belief that non Motorsport UK events were continuing to present a problem and the cost of Motorsport UK's insurance was discussed.

I raised the subject of digital signing on, when it was acknowledged that not everyone had signed on for recent events, and the means of checking that everyone had signed on were inadequate. It was acknowledged that the previous paper signing on procedure at events did not adequately cover this either.

Ron Cowan
Motorsport UK Safety Committee.
